OpsViz on Opsworks
Sensu Metrics Flow

1. Enqueue checks to be executed
2. Dequeue checks based on subscriptions
3. Execute checks locally
4. Enqueue the results
5. Dequeue the results
6. Store the results in Redis
6.1 Results are available in Uchiwa
6.2 Sensu processes notifications
7. Send metric data to Graphite
7.1 Data is available in Grafana
